

ABOUT ME

I am Abel Alejandro, Self-taught, passionate and highly motivated freelance software developer with more than 2 years of experience in web application development.

I enjoy creating intuitive and engaging user interfaces that provide an exceptional user experience. As well as the positioning and loading performance of sites and web applications.

I am constantly learning and improving my skills through online courses, tutorials, blogs, and development communities. My goal is to become a senior developer with experience in a variety of technologies and frameworks. I want to work on challenging projects and contribute to the success of a team.
